Verizon FiOS now offered at YOHO

October 7, 2013, Yonkers NY - YOHO is proud to announce the arrival of Verizon FiOS Services to both 540 and 578 Nepperhan Avenue, Yonkers, NY 10701

The arrival of Verizon FiOS at YOHO is a great new development in the improvement and continual upgrade of the facilities here at 540/578 Nepperhan the first and only 2 buildings with this service at the former Alexander Smith Carpet Mills – and a major advantage for You and Your Business. By subscribing to Verizon FiOS here at YOHO you will automatically acquire a first class competitive marketing and business tool giving you the edge you need to succeed in the digital marketplace.

Arts Incubator, Creative Industrial Incubator and now High Tech Incubator

Verizon FiOS subscription brings a number of benefits – largest of which is being able to leverage one of the fastest optical fiber networks in the USA – allowing for blazing speeds up to 500Mbps on downloads and 100 Mbps on uploads. With the digital environment continually changing this means that you can market and expose your artwork, products and services faster. At the same time, this will also open YOHO up to the Tech and IT sectors as well as startups. For app developers, techies and aspiring entrepreneurs this means that you gain an edge in promoting, selling and marketing your products and services with the added benefit of the input of a growing community of innovators. All businesses need the fastest internet possible to function efficiently – to gain that competitive edge they need to succeed.

Verizon FiOS is also backed to work during power outages – you can continue to update your websites, online portfolios, ecommerce platforms and product information and not see an interruption to your digital marketing campaign while you work - or provide another means to saving your data online. There is also 24/7 Tech and Software support on hand to help you if you experience technical issues.

Lastly, Verizon FiOS also offers tenants free email addresses, web space and sharing options.
