Mr. Zuki Pjetrovic , throughout all our interaction of acquiring studio #507 was extremely courteous , kind , helpful and professional.

The space was found clean and empty , making the hole process of the moving , easier and faster .

A great building , peaceful and serene . Clean and very well organized.

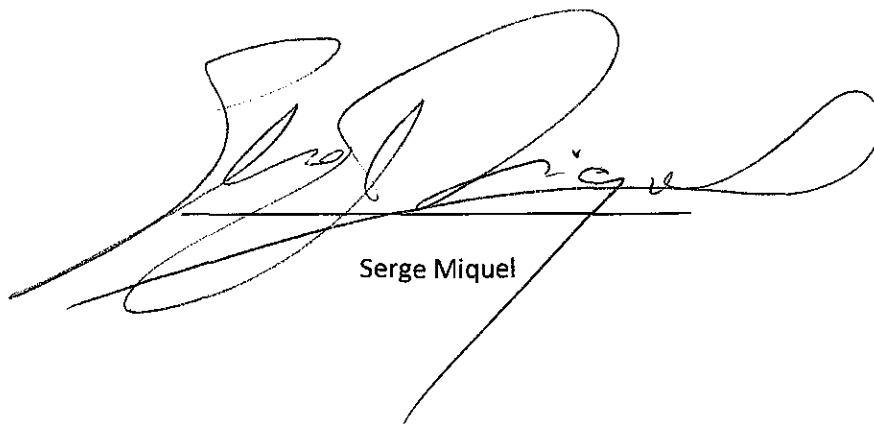

Mr. Pjetrovic considering my necessities proceeded to give me a tour around the installations , showing me the right alternatives and different dimensions of art studios available. Im very happy and already established , ready to get started with my new works in a new environment , in a beautiful area .

Mr. Pjetrovic in all the extend of the word , is truly leading YOHO to a very fascinating future .

Meeting with the artists , promoting and feeding the residents of Yonkers with something that is irrefutable important ,The ARTS.

Where this area in the next upcoming years , will benefit even more from this kind of opportunities being given to the community.

Thank you very much and my very best regards.
